**Subject:** Re: Document Recovery Vendors

Karen thanks so much for the introduction.

Ms Stock,

In addition, to Logistics Staging we are a premier base camp provider. Deployed Resources provides turn-key solutions to the basic life support needs of your first responders. Deployed Resources can provide turn-key base camps to house your emergency workers or provide individual equipment support to comfort stations, mass care and special needs shelters. Whether it is toilets and showers, laundry units or feeding Deployed Resources has a turn-key solution.

We are the only turn key base camp GSA Contractor ( GSA Contract GS-10F-0309T).

We are ISO 9001:2000 certified in both production of our equipment and base camp operations.

Our staff is trained in ICS and NIMS.

We specialize in containerized facilities. Our units are standard ISO 8'' x 20'' shipping containers that have been retrofitted in various configurations to support Base Camp requirements. These units include:

- Containerized Berthing Units (CBU)
- Showers
- Latrines
- Laundries
- Kitchens
- Sinks
- Offices

We also have the Trimo®®, Containerized Facility. The versatility of these units allows them to be erected in virtually any configuration.

Our inventory is capable of supporting over 20,000 persons. We do not rely on extensive use of subcontractors (other than our teaming partners for specialty services of tents and power) and as a result, we can provide direct support for immediate operations without layers of unneeded communication and approvals. Our dedicated transportation capability, ensures that urgent schedules will be met. Through equipment ownership, we feel that we can provide the most cost

effective services to the client. In providing our services, we are teamed with the largest national tent and temporary power and HVAC companies in the United States. With these vendors integrated into our system for rapid deployment, our turnkey service to our client is complete.

Plain and simple, we get it done.

I'd like to invite you to visit our website [www.deployedresources.com](http://www.deployedresources.com) look at our video and our GSA Schedule. Also all of our equipment can be viewed on our website.

Let me know if we can assist you or the City of Bettendorf. If you require any kind of other recommendation please contact David Miller, Director or Jerry Ostendorf Operations at Iowa Homeland Security and Emergency Management

Richard

Lori:

We are watching the news reports from your state with concern. Here on the southeast Florida coast we understand weather emergencies all too well, but the flooding which you are enduring is very hard to watch and being able to do so little to help.

Below are names and addresses of two companies which may be able to help with Document Recovery efforts:

1. BMS Catastrophe, 303 Arthur Street, Fort Worth, TX 76107 Ph: 817-296-0886 Contact: Lindsay Childs, Director of National Accounts
2. Munters Corporation, 2100 Principal Row, Suite 404, Orlando, FL 32837 Ph: 407-275-7542 Contact: Ken Gernenz

Also, below is the name of a gentleman who represents a company which sets up Emergency Logistics Staging Areas in the case of a disaster.

The company is Deployed Resources, Inc. Mr. Cheek helped in Broward County during the aftermath of Hurricane Wilma in October 2005 and

understands a great deal about FEMA requirements. I am copying Mr. Cheek on this message.

Richard Cheek - Deployed Resources, Inc., 209 Whithorn Drive, Gardner, North Carolina 27529  
Ph: (919) 208-8832

You are in our thoughts constantly. Best wishes for your recovery efforts.
