MEMORANDUM

TO: Andrea White, Iowa Department of Transportation (IADOT)
Brandon Geber, Illinois Department of Transportation (ILDOT)

FROM: Gena McCullough, Deputy Director

DATE: February 24, 2026

RE: MPO Transit Asset Management Performance Measures

Bi-State Regional Commission submits this memorandum to the respective Departments of Transportation to acknowledge the local public transportation providers' development and implementation of their respective transit asset management plans, and/or cooperation within a statewide plan. These plans include performance targets related to equipment, facilities, and rolling stock, as well as transit infrastructure, if applicable.

Bettendorf Transit and Davenport CitiBus updated initial performance targets as part of Transit Asset Management Plans, and Rock Island County Metropolitan Mass Transit District – MetroLINK participated in cooperation with the Illinois Department of Transportation with respect to:

- Equipment (non-revenue service vehicles) State of Good Repair (SGR) Target – Percentage of Vehicles that have met or exceeded their Useful Life Benchmark (ULB).
- Facilities State of Good Repair (SGR) Target with an asset class rated below 3.0 on the TERM Scale (FTA's Transit Economic Requirements Model – 5 being excellent).
- Rolling Stock State of Good Repair (SGR) Target – Percentage of Revenue Vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB).

Note: Infrastructure (rail, fixed guideway, track, signals, and systems) State of Good Repair Target – Percentage of Guideway Directional Route Miles with Performance Restrictions by class is not applicable at this time.

The selected targets are outlined on the following pages of this memorandum. The Quad Cities Transportation Policy Committee at its February 24, 2026 meeting agreed to work cooperatively with the respective transit systems toward achieving these respective targets by the state side represented through the cooperative transportation planning and programming process.

The ultimate goal is to achieve a state of good repair as part of transit asset management within the metropolitan planning area.

The Quad Cities MPO Policy Committee acknowledges through the Memorandums of Understanding between the MPO and CitiBus, and Bettendorf Transit, as well as the agreements with Illinois and Iowa, that cooperative planning and programming will require coordination related to transit asset data collection and information sharing, target setting, and reporting. This memorandum represents notification of the Quad Cities MPO’s support of these targets represented in the Quad Cities, IA/IL Metropolitan Planning Area (MPA) and to report that the systems have shared copies of their compliant Transit Asset Management (TAM) Plans with MPO staff for reference.

The transit systems’ targets are outlined below. Each system has different needs and facilities. MetroLINK participates within the State of Illinois target-setting for TAM. The FFY2026 State of Illinois TAM performance targets attributed to MetroLINK are:
